Kyiv, Ukraine, Remote

Summary

I'm passionate about the digital world and I like to provide the quality of digital products and make them perfect. I have a good understanding of STLC/SDLC and Agile methodology. I am good at creating and maintaining test documentation, in conducting demo meetings. I dived into test design techniques and refreshed my knowledge on the last marathon. I'm a self-organized and motivated person, and good at remote work as well. I would like to succeed with your company creating successful product and maintaining it.

Skills

• **Tools and technologies:** Jira, Confluence, TestRail, Test Link, Testomat.io; Postman, Swagger; HTML/CSS; Chrome DevTools, Rest API, My SQL, SQLite; JMeter; Git
